

REMARKS

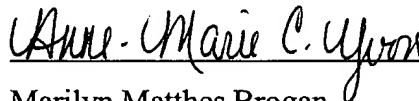

The Examiner's Amendment that was included in the Notice of Allowability of June 6, 2005, misstated the amendment to claim 13 that between Applicants' representative and the Examiner agreed upon during a telephone conference on April 7, 2005. Claim 13 as presented herein reflects the language discussed in agreed upon during the telephone conference of April 7. During a second telephone conference on June 30, 2005, Applicants' representative and Examiner Pak discussed again the language presented herein.

Claim 13, as now presented, overcomes the previous rejection under 35 U.S.C. § 101 by specifying that the host cell has been transformed with the polynucleotide of claim 10. The language of claim 13 eliminates cells wherein the polynucleotide is endogenous to the cell.

Entry and consideration of this paper are requested. The Examiner and/or SPE are requested to contact the Applicants' representative if any discussion of this matter is necessary.

Respectfully submitted,

FROMMER LAWRENCE & HAUG LLP
